OFFICE OF NATIONAL ESTIMATES

I. MISSION

The Assistant Director for National Estimates is charged with the production of national intelligence estimates and with assisting the Director of Central Intelligence in the coordination of intelligence production activities relating to the national security.

II. FUNCTIONS

The Assistant Director for National Estimates shall:

- A. Formulate national intelligence objectives for submission to and adoption by the Director of Central Intelligence and the National Security Council.
- B. Develop the national intelligence production program, adjust such program to changing events, and assign production responsibilities in connection therewith to Agency components and to other intelligence agencies of the Federal Government.
- C. Direct the production of national intelligence estimates in accordance with the approved production program.
- D. Prepare national intelligence estimates for issuance by the Director of Central Intelligence.
- E. Ensure initiation of intelligence information requirements needed for the production of national intelligence estimates.
- F. Render intelligence program guidance to the heads of collection and other intelligence support components of the Agency and other intelligence agencies.
- G. Present recommendations to the Assistant Director for Intelligence Coordination on coordination matters relating to the production of national intelligence estimates.
